*Regular WTRC Monthly Race

WTRC ANNUAL AWARD STANDINGS
(July 1980 through April 1981)

Saturday, April 11, 1981

Despite a direct scheduling conflict with the Diet Pepsi 10 kilometer held at Clovis, New Mexico, fifty-five runners attended the monthly WTRC race. Because of extensive roadway repair along the usual Amarillo course, Bob Dunbar and his colleagues were forced to reroute festivities. The new course provided as great a challenge as the old, since the participants confronted a rather lengthy hill at the one-mile mark. Thus, all the marks presented here are new course records, or at least course PR's.

Cliff McCurdy (Lubbock) took first place honors by catching Bobby Cunningham (Abermathy) in a sprint for the tape. Cliff, running a tidy 27:20, took the Open Division while Bobby easily captured the 40-49 Division. Ben Padilla (Amarillo) finished a strong third, edging Jim Hogan (Pampa) who took first place in the 30-39 Division. Don Sanderson (Tulia) hot footed the route in 32:02 to take honors in the 50 and Over Division. Mary Lou Gatlan (Amarillo) won the Ladies Division in 37:53.

Featured Runner of the Month—Robert Schooler.
See Page 7.

The following standings are for the club year to date and include the Attendance Award, Mileage Award, Victors Award (Men and Women) and 75 Mile Club.

ATTENDANCE AWARD		MILEAGE AWARD

Certified Road Running Courses - the official list of road running courses certified by the National Standards Committee. Shows location, elevation, type of course, major race, and date of measurement. This book is a guide in selecting races that can give meaningful times and can qualify runners for records and national ranking. Includes information on how to measure and certify road running courses and details on qualifying for records and rankings. Lists all of the 1,326 courses certified by the National Standards Committee to 1 Jan 81.

Running Records by Age - shows every single-age record for men and women in 28 standard track and road-running events, 100 meters to 100 miles. Over 2,000 runners hold single-age records, and hundreds of records are open for the taking. Shows the best pending mark and the best mark on a point-to-point course, if these better the official record. Includes the official open and age-group road running records as recognized by the RRCA and IATC. Explains standards for setting records and how to qualify for them. Many runners hold single-age records and don't even know it, but even if you don't hold an age record, this book shows what it takes to set one.

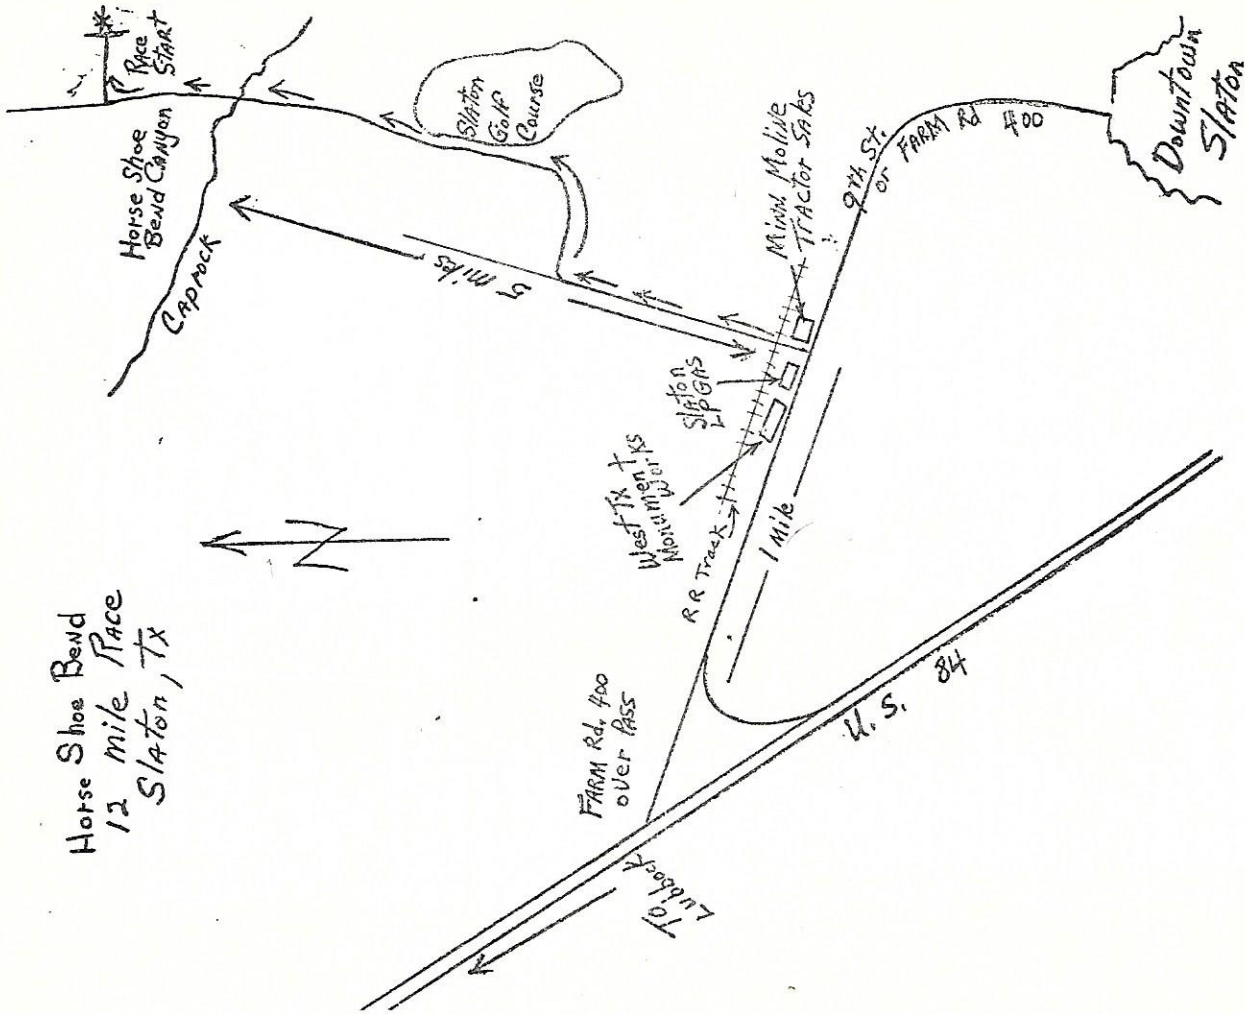

U. S. Distance Rankings - in-depth rankings both for 1980 and all-time for 16 standard events from 10 kilometers to 100 miles and 24 hours. Ranks the top 100 men and top 50 women, plus up to 10 in each of 28 age/sex groups. Includes both road and track marks for U. S. citizens and resident foreigners. Contains complete list of 1980 races used in compiling the rankings, which is helpful in finding future events. Many runners are listed in the rankings who are not aware of it, and in a number of age groups in several events it is not possible to find enough marks to fill the spaces allotted in the rankings. Even if you aren't one of the thousands of runners listed, this book will show what marks are needed for ranking.

U. S. Marathoners - the largest listing of US runners marks ever published. Every reported 1980 marathon mark by a US citizen on a certified course is included. Since the vast majority of marathon marks are on certified courses, most marathon finishers will be listed. This book ranks runners within their age group and shows how each mark ranks nationally. It shows each runner's time, age, home state, and the date and place of the race. Includes complete data on each race, both those on certified and uncertified courses. Contains numerous summary tables, analyzing US marathoning in every detail. Includes comprehensive analyses by state, age, sex, race course, and time. Issued in four volumes. Those interested only in their own ranking will need only Volume 1, Explanation and summary, and the volume applicable to their own age. Even if you haven't completed a marathon, this book will help you select one to try and show where you might rank when you finish your first one.

Order form:

- Certified Road Running Courses - \$2.95
 - Running Records by Age - \$4.95 (available Mar 81)
 - U. S. Distance Rankings - \$6.95 (available Apr 81)
